

Invitation to
**CLEANROOM SYMPOSIUM &
EXHIBITION**
R3 Nordic

23rd - 24th May 2023
at Marienlyst Strandhotel,
Helsingør, Denmark.

The program will have a wide scope in areas such as pharma, life science, hospitals, food, and biotech and will cover many interesting aspects in clean rooms and clean technologies, such as:

- New EU-GMP Annex 1
- Risk Assessment
- Contamination Control Strategy
- Authorities' expectations
- Barrier & Isolator technology
- EU-GMP Annex 15
- Microbiological sampling methods
- Cleaning & disinfection
- Cleanroom standards
- Hygienic Design in the Food Sector
- Energy saving in HVAC
- New hospital recommendations
- The hospitals of the future
- Pandemic control strategies in built environment
- Cleanrooms in cytostatics production

The symposium provides a fantastic opportunity to acquire high level knowledge in many disciplines. Furthermore, it offers an unique business opportunities by helping to grow your network with other participants' businesses, both as audience and as speakers or exhibitors.

The program and registration to the Symposium can be found on R3 Nordic homepage
<https://r3nordic.org/produkt-kategori/courses/>

The R3Nordic society is a non-profit association with activities in research, training, production, and product development in controlled environments.
